FULL STACK DEVELOPER

A motivated Full Stack Developer with a robust foundation in JavaScript, React, Ruby, and Rails certified through immersive Software Engineering training at Flatiron School. Combined with 5 years of experience in the Hospitality Industry, I offer a powerful combination of technical expertise and refined soft skills in problem-solving, attention to detail, and collaborative teamwork. Eager to leverage this blend to make meaningful contributions to an innovative organization.

TECHNICAL SKILLS

JavaScript, React, Redux, BCrypt, Ruby, Ruby on Rails, HTML, CSS, Github

TECHNICAL PROJECTS

GrubGo - [Github](#) | [Demo](#)

In Phase 1 of development, the prototype food delivery app enables Restaurant Owners to upload and modify menus.

- Developed full-stack JavaScript/React frontend and Ruby/Rails/Active Record/SQLite back-end application.
- Integrated React Redux to efficiently manage the state of my application in a centralized manner.
- Implemented secure authentication with session-based and cookie-based authorization using 'bcrypt'.

Blogger's Digest - [Github](#) | [Demo](#) | [Live App](#)

Designed for writing enthusiasts who want to showcase their work and connect with others in the writing community.

- Constructed a dynamic full-stack web application allowing users to create, read, update, and delete blog posts.
- Incorporated comment feature that enables users to share feedback on each other's posts.
- Applied React, useContext, Rails, Active Record and CSS to build an interactive and responsive user interface.
- Implemented session-based authentication and cookies for authorization, and 'bcrypt' to securely store passwords.

MyCuisine - [Github](#) | [Demo](#)

Developed for users to explore and promote local restaurants serving their best cuisine.

- Created using React and styled components for a responsive design, and integrated with a JSON format database.
- Enables users to browse, like and add their favorite restaurants, promoting an interactive user experience.

PROFESSIONAL EXPERIENCE

Junior Web Developer - A Free Bird

New York, New York - 07/2023 - Present

- Developed clean, testable, and well-designed code, accelerating the creation of reliable applications.
- Collaborated with a distributed development team to integrate data from diverse databases and back-end services.
- Executed coding, debugging, testing, and troubleshooting activities, maintaining product quality.

Server - Restaurant Daniel

New York, New York - 06/2018 - 05/2020

- Achieved 90% customer satisfaction, maintained restaurant's 2 Michelin Star rating by delivering exceptional service.
- Coordinated with management to revamp menu descriptions to enhance server understanding and guest experience.
- Trained new employees providing hands-on guidance and support throughout their onboarding process.

Server - Baccarat Hotel

New York, New York - 07/2015 - 06/2018

- Assisted in launching the Baccarat Hotel as part of the opening team, setting the stage for the hotel's first Five Star Rating from Forbes Travel Guide.
- Educated and coached new employees on company policies, procedures, and best practices, fostering a culture of continuous learning and improvement.
